

Data Sheet

## EMI SHIELDING CABLE JACKET

**Material:** Metal mesh and black PVC protective layer

### CARATTERISTICHS

- Excellent shielding effectiveness
- Easy to use
- Flame retardant
- Physically protects cables

This product wraps cable(s) with a PVC jacket, to protect the cable(s) from environment or to keep cables bundled together.

There are several different closures, Velcro, Zipper, buttons, etc.

A PVC jacket is laminated with Al foil to provide EMI noise shielding. Some are available with additional layer(s) of shielding material such as conductive mesh, conductive fabric, to enhance the shielding performance.

There are enough standard sizes to accomodate most needs. If a special size is required, we can produce customs size in different combination of closures and shielding layers.

DIAMETER	DIMENSIONS	CODE	METERS
18 mm	GS.180.1.PVC.1.RS EMI SHIELDING CABLE JACKET	99.1244	30 meters roll
25 mm	GS.250.1.PVC.1.RS EMI SHIELDING CABLE JACKET	99.1245	30 meters roll
29 mm	GS.290.1.PVC.1.RS EMI SHIELDING CABLE JACKET	99.1246	30 meters roll
38 mm	GS.380.1.PVC.1.RS EMI SHIELDING CABLE JACKET	99.1247	30 meters roll

## SHIELDING

### ■ Shielding effectiveness

- Test standard : ASTM D 4935
