

TECHNICAL DATA SHEET

PRODUCT Shielded Sheaths
CODE 23.00040-00
P/N GS.320.1.SCSW

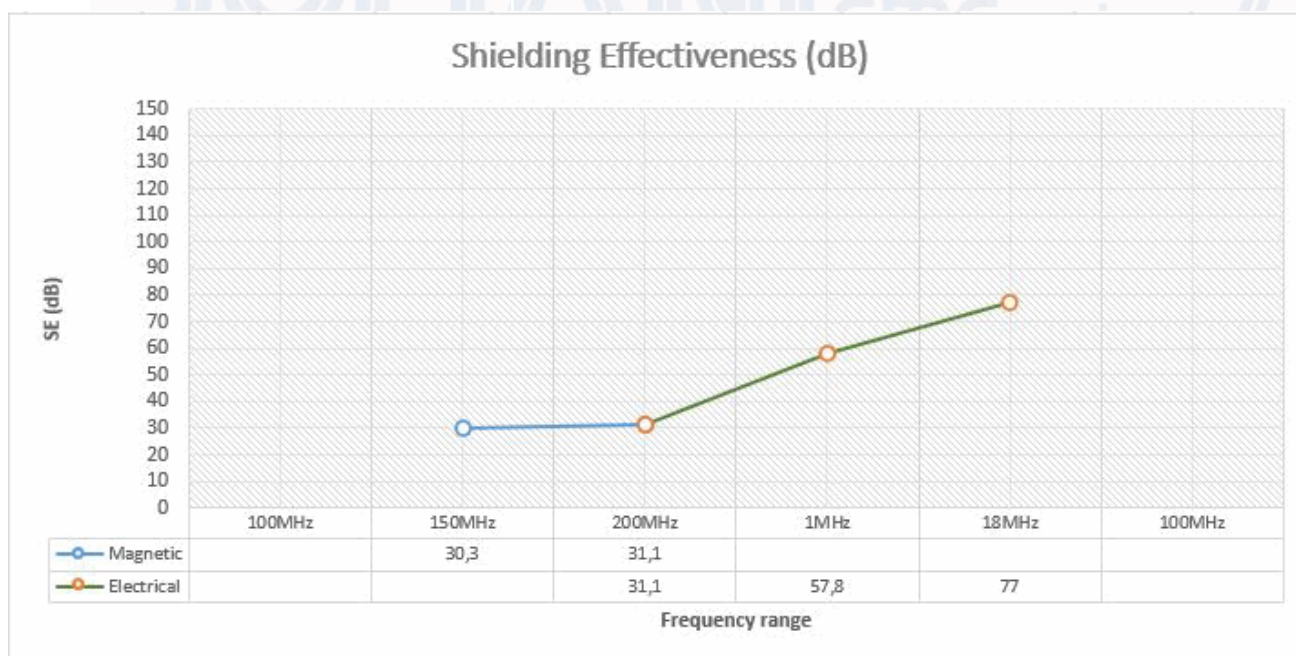

DESCRIPTION EMI shielding jacket for cable
 Max diameter: 19mm.
 Weight: 160,0 g/meter
 Supply method: rolls 25m long.

MATERIAL SPECIFICATIONS

Material code: 23.00040-A0 - GS.320.1.SCSW

DATA	VALUE
CHARACTERISTICS	The product has shielding property, its side is open self-closing structure. It is easy to be installed and maintain. It is joined by sewing.
APPLICATION	It is widely used for electromagnetic shielding protection for railway wire harnesses.
MATERIAL	Tinned copper, copper foil, PPS, Nomex
COLOR	Silver
TEMPERATURE RANGE (°C)	-40 / +150
FLAMMABILITY RATING	EN45545-2 (R22/R23 grade HL3)
OTHER PROPERTY	Immersion rating EN 6059-309
SHIELDING EFFECTIVENESS	

These values are measured under laboratory conditions. Results may vary in other situations; please read our Guarantee.
